

2012 Beach Naturalists

Join the Kitsap Beach Naturalist Class of 2012!

Our peninsula is surrounded by salt water. Our volunteers and the residents of our peninsula enjoy learning about the sea life nearby. Beach Naturalists volunteer in a myriad of ways working with the public and also serve as citizen scientists.

The classes will cover: intertidal invertebrates, seaweeds, animals, beach etiquette, nearshore habitats and conservation, salmon and forage fish and climate change.

The Kitsap Beach Naturalist Program is coordinated by WSU Kitsap County Extension and Washington Sea Grant.
